How do I sign up?

IT'S SIMPLE. Provide us with your contact details. We'll get back to you to understand your requirements and issue the necessary login credentials for your team to start using the platform, free of charge.¹

Who can request UpSkill

- **FACTORY MANAGERS AND SUPERVISORS** who want to supplement their social compliance knowledge base.
- **FACTORY OWNERS** who want to increase the knowledge base of their workforce.
- **RETAILERS** that work with factories and want to implement innovative initiatives on the ground to improve the knowledge base of the factories they work with.
- **ORGANISATIONS AND TRADE ASSOCIATIONS** that work with large numbers of factories and want to implement a scalable e-learning solution.
- **SUPPLIERS** that want to see better social compliance knowledge among the factories they source from.

What's UpSkill?

UpSkill is an e-learning solution for garment factory managers in Bangladesh to improve their knowledge of social compliance. It integrates best international practices within the local context of Bangladesh. UpSkill:

- Allows you to do the training at your convenience
- Provides training tailored to Bangladeshi culture, resources and language
- Awards users with a Certificate of Completion at the end of the course
- Has its syllabus peer reviewed by global audit firm Bureau Veritas
- Is user friendly, accessible and FREE

"UpSkill can help me as well as my team by explaining the latest compliance issues. As it is internet based program, any user can get access from anywhere and gain knowledge. This is what I like most about this platform."

*Shoeb Shibly,
Factory Manager*

What GreenGrade is offering

Unique opportunity for factory managers and supervisors to experience UpSkill, free of charge. As an accredited learning provider, GreenGrade will only charge an administrative fee to those who decide to undertake the exam and receive the official certificate at the end of the course. UpSkill acts as a proactive tool as it allows users to apply what they learn, to prevent potential accidents.
